

SECRETARY OF NAVY WANTS AEROPLANE FUND INCREASED

Larger Appropriation for Training of Aviators Will Be Asked in Report.

An increased appropriation for aviation in the navy, together with legislation permitting the assignment of a larger number of officers to schools of instruction, will be recommended to Congress by Secretary of the Navy Meyer in the report to be submitted the first week in December.

Particular stress will be laid on the fact that the mere purchase of machines will not equip this arm of the service. Men must be trained. This is the crucial point in the development of the aviation squad.

It is expected that the Secretary of the Navy will make his recommendations regarding aviation one of the features of the report, and that he will recommend a marked change in the facilities with which the corps has to work.

The prime necessity of training men as aviators is being displayed in the Balkan war. Little has been reported of the operations of aeroplanes, but the Navy Department has recently found that German manufacturers of aeroplanes, speed indicators, and other delicate instruments have been practically stripped of their stock by demands from southeastern Europe.

This fact is taken to indicate that at the last moment the warring countries have attempted to build up aeroplanes squadrons. The chief obstacle has been the training of men, and it is probable that the war will be over before the training has progressed very far.

CANAL COMMISSION TO PROBE GUAYAQUIL

Board Will Try to Determine How to Make Ecuadorian Port More Sanitary.

The Panama Canal Commission will investigate health conditions in the port of Guayaquil, Ecuador, under direction of Secretary of War Stimson, who has been advised by the commission that the health of the canal is threatened by the spread of yellow fever, malaria, and other diseases.

Ships passing through the canal can conveniently call at Guayaquil. It is considered one of the worst pest holes in the world, and if it is not cleaned up before the Panama Canal is placed in operation may prove to be a plague spot to infect every port where vessels touch.

Yellow fever, malaria, smallpox, and bubonic plague have been anxious, larger or smaller number of instances at practically all seasons in the Ecuadorian port.

This port has been a special object of interest to the Public Health Service, and many of the surgeons under Surgeon General Blue have been anxious to "get action" on Guayaquil, regarding it as the most dangerous port on the American continent.

BOY AND THE HOME CONFERENCE OPENS IN LOCAL Y. M. C. A.

Moral Teaching of Sex Hygiene Explained by Authority on Subject.

The conference regarding the boy and the home, which is being conducted by Dr. Winfield Scott Hall under the auspices of the Y. M. C. A. this week, was begun last night with a discussion of the business end of the work by the promoters, in the Y. M. C. A. building. In this meeting the prospects for a successful week were declared excellent.

It is the intention of the promoters of the conference to instruct the parents of boys and girls in Washington as to the best methods of teaching self and sex to their children. Dr. Hall will have charge of the work, has written many books on the subject and is regarded as the chief authority in the matter in the country. He handles the subject in a clean, wholesome, unobjectionable manner and has met with the most unqualified success wherever he has lectured.

In addition to the regular lectures during the week in the Y. M. C. A. building, Dr. Hall has been requested to lecture before a great many home and school associations in the city and will accept these invitations, so far as possible.

The secretary of the boys' department of the Y. M. C. A. received two letters today highly indorsing the conference. One of these was from the Rev. C. H. Butler, of the Columbia Heights Lutheran Church, who stated that he was heartily in accord with the movement and had every hope for its success. Another letter was received from R. T. Frazier, a clerk in the Senate, who said he was deeply interested in the subject and believed that it would result in untold good.

Dr. Hall will conduct a mothers' meeting this afternoon at 4 o'clock in the auditorium of the Y. M. C. A. At 6 o'clock the general session will be opened, in which Dr. Hall will lecture on "The Boy, His Home and His Health."

Envoy Is Returning With Rubber Data

Stuart J. Fuller, the American consul at Iquitos, who, in company with the British consul, made a careful investigation of conditions in the Putumayo rubber district, will leave Iquitos for the United States tomorrow. He will arrive in the city of Washington, D. C., on Monday, and will make his report in person. Consul Fuller has engaged passage on the steamship Manco.

The first reports received from Consul Fuller, after his trip into the rubber district, indicated that he was seriously ill. This is in complete accordance with the reports of the district contracts some form of jungle fever. The decision of the consul to make his report in person indicates that he is convalescing from the attack.

Swift & Company's sales of fresh beef in Washington, D. C., for the week ending Sat., Nov. 2, averaged 9.50 cts. per lb. Adv.

SEMINARY GIRLS HOLD A POLITICAL ROMP ON CAMPUS

Three Processions March Behind "Roosevelt," "Wilson," and "Taft."

Marching with a brass band and flaming torches, and cheering and singing, three processions of schoolgirls, one after another swept up and down the campus of National Park Seminary, at Forest Glen, last night. The girls were marching, and singing and cheering for Wilson, Roosevelt, or Taft.

When the demonstrations were over, three girls, impersonating the leaders of the three parties, Progressive, Republican, and Democratic, made addresses telling why in the ballots about to be cast they should be given the preference. Then the girls voted.

Of the 234 votes cast, "Wilson" got 120, "Roosevelt" captured 82, and "Taft" 32. Following the announcement the Wilson supporters burst into loud whoops of ecstatic triumph.

Names of Girls Secret.

Who the three girls are who impersonated the Presidential candidates is a deep, deep secret, which the school authorities refuse to divulge. But the names of their addresses are known and they ran about as follows:

"The Republican party—you girls in the back keep still—stands for safe and sane conduct of the National Government. Its triumph at the polls tomorrow—that is, to say this evening—means a continuation of prosperity. Most of you girls know what it is to have prosperous fathers. Viva Prosperity!"

When the cheers for "Mr. Taft" had died down, "Mr. Wilson" mounted the rostrum, which was the front porch of the main hall of the school. Quoth "Mr. Wilson":

"The Democratic party will reform the tariff and lower the cost of importing luxuries and diamonds. It will curb the trusts and throw off the shackles which bind us all. It stands for personal freedom and freedom is what every school girl wishes. Why should you girls be made to go home at 10 o'clock when we could like to stay until 10:30 or 11?"

"Mr. Wilson's" effort was greeted by a great cheer, and so was "Colonel Roosevelt's," who followed.

"Colonel Roosevelt's" teeth were noticeably less noticeable, so to speak, than the real thing, and he or she wore no eyeglasses last evening. But she or he made a telling speech. Said the "colonel":

"The Progressive party should be favored by seminary girls and all other girls because it favors 'votes for women' and the real thing, and he or she wore no eyeglasses last evening. But she or he made a telling speech. Said the 'colonel':"

"The Progressive party should be favored by seminary girls and all other girls because it favors 'votes for women' and the real thing, and he or she wore no eyeglasses last evening. But she or he made a telling speech. Said the 'colonel':"

THIRTY HOMICIDES AND 72 SUICIDES RECORD FOR YEAR

Increase of Crime in Country Pointed Out by Major Sylvester.

That there has been a large increase in crime throughout the United States in recent years, due to the immigration of the lower classes of southern Italy and Greece, was the statement today of Major Sylvester, Superintendent of Police, in commenting on the records of the coroner's office, which show that in the fiscal year ended June 30, there were thirty homicides in the District, the largest number in that period of time in the history of the Police Department.

"Statistics of all the large cities show an increase in crime, in many instances greater in proportion to that which has occurred in Washington," said Major Sylvester. "It is due, in my opinion, to the immigration of the lower classes of southern Europe who regard this as a 'free country' and chafe under the restrictions imposed by the laws of the land."

Tony Milano, recently convicted of murder, is an example of the class to which I refer and which is a source of continual trouble to the police not only in Washington but in every large city in the United States.

Major Sylvester's views in regard to the increase in the number of homicides in the District, it is understood, are expressed in a report recently submitted to the Commissioners, which will be incorporated in their annual report to Congress.

The number of suicides in the District during the year ended June 30 was seventy-two, according to the annual report of J. Ramsey Nevitt, coroner, made public today.

Death by gun-shot wound was the most popular method of self destruction. Twenty-eight persons ending their life in this way. Twenty-four committed suicide by apoplexy or by means of blinding gas. Fifteen by drinking carbolic acid, two by drowning, two by hanging, one by means of muriatic acid and one by drinking bichloride of mercury.

The number of violent deaths due to accidental causes was 150. Fifteen deaths are attributed to street railway and steam railway accidents. Deaths from natural causes numbered 1,187.

Elect Henry Snelling.

Henry H. Snelling is the new president of the senior class of the George Washington University Medical School. William M. Leonard is vice president and T. Kirk is secretary. Donald F. Dutton is treasurer and Howard W. Hodrick is class editor. The election was held last night.

May Place Navy Yard Men in Civil Service

It is highly improbable that civil service rules will be extended to cover Navy Yard employees during the present Administration. Before the demands of a part of the men are met, the objection of the Navy Department must be overcome, and it is not believed that President Taft, with whom the decision rests, will override the department.

The subject of civil service for navy yards was considered, and action was taken by the commandants of the Atlantic and Pacific yards at the recent meeting of the men's committee. The commandants have not yet reached the Secretary of the Navy.

The attitude of the department appears to be that civil service will open the way to favoritism greater than has been charged to exist under present conditions. Unless methods of examination were improved so that the judge would have technical knowledge of the qualifications of applicants, the selection of men would rest largely in the hands of foremen.

"A Rag, a Bone and a Hank of Hair"

Unflattering, like much of Kipling's best stuff. But falling hair is an eyesore, and quite unnecessary. You can have the prettiest hair, if you will do this:

Get a five cent packet of AMBUROL today from your druggist. Half fill a basin with hot water. This is no "tea-spoon and teacup" shampoo. Dip the head in, wetting the hair well. Now shake the AMBUROL powder on the hair and shampoo with one hand. It makes a big foam. The hair comes back to its youth, stops falling out. Dandruff disappears. Dull, brittle hair grows wavy and fluffy. AMBUROL is tonic and shampoo combined. Spend a nickel to prove it.

A useful book, "Secrets of Beauty," by Lady and 10 cent packets of AMBUROL. At all druggists.

3 Loaves Star of the East for... 10c

Fancy Yellow Onions, 17c per peck. Per bushel, 65c.

Y. M. C. A. and Y. W. C. A. Plan Week of Prayer

Beginning on Sunday, the Young Men's Christian Association and the Young Women's Christian Association all over the world will observe a week of prayer.

The Y. W. C. A. of this city has made arrangements for special services to be held during the week, and special speakers who have been engaged in missionary work will preach. The Y. M. C. A. also will hold special services.

Architects to Meet.

The regular monthly meeting of the Washington Architectural Club will be held tonight at 8:30 o'clock at 1517 H street northwest. After a short business session, refreshments will be served and election returns will be received.

Healthy Baby is Precious Blessing

To make it healthy and keep it healthy use a reliable baby laxative.

In spite of the greatest personal care and the most intelligent attention to diet babies and children will become constipated, and it is a fact that constipation and indigestion have wrecked many a young life. To start with a good digestive apparatus is to start life without handicap.

But as we cannot all have perfect working bowels we must do the next best thing and acquire them, or train them to become healthy. This can be done by the use of a laxative-remedy very highly recommended by a great many mothers. The remedy is called Dr. Caldwell's Syrup Pepsin and has been on the market for two generations. It can be bought conveniently at any drug store for fifty cents or one dollar a bottle, and those who are already convinced of its merits buy the dollar size.

Its mildness makes it the ideal medicine for children, and it is also very pleasant to the taste. It does not hide behind the name of a fruit or vegetable, and yet it is genuinely harmless. Very little of it is required and its frequent use does not cause it to lose its effect, as is the case with so many other remedies.

Thousands can testify to its merits in constipation, indigestion, biliousness, sick headaches, etc., among them reliable people like Mrs. William Elvidge, mother of Master Elvidge, Factoryville, Pa., and Mr. Joseph Hoffines, Canal Winchester, O. They keep it constantly in the house, for every member of the

family can use it from infancy to old age. The users of Syrup Pepsin have learned to avoid cathartics, salt waters, pills and other harsh remedies for their babies but temporary good and are a source to any delicate system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it, before buying it in the regular way of a druggist, send your address and name will do to Dr. W. H. Caldwell, 12 Washington St., Monticello, N. Y., and a free sample bottle will be mailed to you. Results are always guaranteed. Money will be refunded.

MASTER ELVIDGE

"Busy Corner" Tea Biscuits, Baked fresh, per doz., tomorrow 10c. Bakery—Third floor.

These Unusual Values in Furs And Fur-Wearing Time Come Together

A few special purchases and a desire to give unusual values for Wednesday, combine to make tomorrow's fur announcement of unusual attractiveness.

\$25.00 GENUINE WHITE ICELAND FOX SETS, large shawl collar, shaped to make a graceful addition to the evening wrap; and large pillow muff to match, beautifully lined with satin. A set that is especially appropriate for evening wear. Tomorrow's price, \$14.50.

\$20.00 GENUINE BLACK WOLF SETS; this is a fur that is considered one of the best in the point of real service. Set consists of an extra large size pillow muff, large size shawl collar, neckpiece finished in one skin effect, beautifully lined and finished. Tomorrow, \$12.50.

On Bargain Tables—Street Floor.

Eiderdown and Blanket Bathrobes and Sacques

A good warm bath-robe, or dressing gown, such a comfort these cold nights and mornings. You will hardly leave without ordering one when you see the pretty new styles we are showing.

PLAIN COLORED EIDERDOWN BATHROBES, these are in light blue, gray, and pink, good warm quality, made with square neck, and finished with cord and tassels, turn back cuffs. Made of the ripple eiderdown. \$4.00.
